

Skin Like AGE 10 ... Guaranteed!

Health and Beauty Aid with Replacement Energy for Declining LIFE Energy

We discovered that young skin has lots of Energy and Micro Particle Water, but older skin does not. We also discovered that Micro Particle Water is created by Life Energy, a type of Time Reversal Energy. Our product, The Ageless Secret Renewal Support Formula™ has Laboratory Proven, Time Reversal Energy.

Time Reversal Energy is not a common energy. It is an “External” Energy and supports Renewal. Non-External Energies do not support renewal. People have the ability to bring in External Energy, also known as Life Energy, but it declines with the passage of time and stress. This decline causes both an older appearance and lower immunity. The kind of Time Reversal Energy we bring into The Ageless Secret Renewal Support Formula™ is normally unstable and rare, but we found ways to stabilize it and concentrate it. When you put it on your skin it is available as replacement energy to support renewal.

When you spray on The Ageless Secret Renewal Support Formula™ it instantly feels amazing. At first there is a mild cooling, due to the energy then a mild tightening and finally an incredible smoothness develops. The Anti-Gravity, Anti-aging effect makes water lighter. This increases penetration of the 20+ ingredients and promotes deep hydration helping to plump the skin and make it look amazingly young. It also supports Renewal and Energy.

The product has lots of Time Reversal Energy and Micro Particles. Both are important for skin to look young. They help create a beautiful youthful glow and soft, firm, supple skin. Micro Particles have a special UV absorbance at 270nm. The outer shell feels like a lotion. The Energy stored inside, feels cooling.

More on other side

The “At Home” Micro Particle Skin Like Age 10 Test!

This test is possible because Time Reversal Energy can pass through matter, like a magnet.

The amazing effect is temporary. The outside coating of the Micro Particles is gel-like and feels great on skin. When they are cracked open they temporarily feel sticky. When they dry, skin feels amazingly smooth.

Time Reversal Energy declines with the passage of time. A child under the age of 10 can hold a glass of COLD tap water with both hands for 30 seconds and create Micro Particles. You can do it too, but it can take up to 5 minutes depending on how much stress you have and how much your Time Reversal Energy has declined. Applying The Ageless Secret Renewal Support Formula™ to your skin lets you create Micro Particles in 30 seconds. Since it is energy, what happened in the glass of water is showing you what is happening inside your skin. It follows...

You Have Energy and Micro Particles in Your Skin Like Age 10!

To try it, do this: Spray 4 sprays of The Ageless Secret Renewal Support Formula™ into the palm of one hand. Rub your palms together and your hands over one another. Hold a glass of **cold** tap water with both hands for 30 seconds. Place a small amount of the water on your skin where you have NOT used the product. Inside of your forearm is good testing place. Rub it lightly and notice the smooth feeling. Press it repeatedly as it begins to dry to crack open the Micro Particles. Notice it feels sticky. Water does not feel sticky. This is the effect of the coating of the outer shell combining with the energy stored inside. When it is completely dry it feels very soft and smooth.

Skeptics may say this is due to the product washing off. To show it is truly the effect, place some of the treated water on the skin of anyone who has not put the product on their skin. The results will be the same.

How it works and why Life Energy, aka, Time Reversal Energy in You Declines with Stress and the passage of time... The math and science are advanced and complicated, but it might be helpful for you to think of yourself as a battery. Batteries have a plus sign and a negative sign. Within you are electromagnetic energies, which are Non-External and have a plus sign. External Energies are non-electromagnetic and have a negative sign. When you were young, your skin glowed and it was soft, firm and supple. You had a lot of energy because the “Current” flowed through you very strongly from the negative pole (External Energy) to you (the Positive pole). With the passage of time and stress, less of the External Energy flows through and the Battery gets weaker, creating an older appearance and lower immunity. The Time Reversal Energy in our product when applied to skin is replacement energy for that.
